

# Chapter 3 Vocabulary (Do All 15) – Due Friday November 18th

For each word you should create a visual representation for its meaning. If you cannot think of one, create a page with the word, definition and an example.

3			VOCABULARY		
consistent system	.....	157	inconsistent system	.....	157
constraints	.....	187	independent system	.....	157
Corner-Point Principle	.....	189	linear inequality in two variables	.....	172
dependent system	.....	157	linear programming	.....	187
elimination method	.....	164	objective function	.....	187
feasible region	.....	187	parameter	.....	196
			parametric equations	.....	196
			system of equations	.....	156
			system of linear inequalities	.....	179
